

## ***Verbatim Messages Protesting "Corpus Christi"***

*Courtesy of Tarleton State University*

- Regarding your president's letter in response to allowing the play "Corpus Cristi" to continue all I can say is I am glad you allow the same "freedom of speech" when students thank Jesus Christ in their graduation speeches and express their beliefs that homosexuality is immoral. I'm sure you would even allow a play about homosexuals dressed in pig costumes and sodomizing little boys, right? Because that's not hateful or offensive either.
- I am disgusted with the anti catholic hate speech! I am disgusted by you stupid play I once considered going to college here but not any more! You all can go to hell and burn! This is a mockery! How can you accept such play, if anybody is going to hell its definitely not catholics!! The devil is loose and apparently he got a hold of yall!! When your lives start to fall apart don't ask why what did I do wrong why is this happening to me! Instead Acknowledge the fact that yall are wrong!
- I was wondering how a school like yours be so disrespectful of a major religion? Jesu Christ was depicted as being gay in of the school plays, how stupid could you be? Why not have a gay Mohammed? What's the matter with that? I'll tell you why,..this doesn't have anything to do with art, anything to with culture. What it does have to do with is pushing the envelope to see what Christians can tolerate. Your school sickens me, the director sickens me. No one I know will ever hear anything good about Tarlton. You have a warped agenda.
- I think it is revolting that Schools are allowed to continue with all things that dgrade Our Lord Jesus. But when it comes to teaching about his purpose you can pull the seperation between church and state. It might take a few years but we are going to change the hands of the legislatures in every state and clean the houses of every perverted Liberal teacher, while at same time clean our churches of perverters of the Gospel. I hope you pray and ask forgivenss than you have allowed the destruction of our youths moral characters & participated in the death of their souls.
- Your school is despicable....don't give me this 1st amendment crap. You really think the founders of the constitution meant for it to be used this way? You school is crossing a lone and for what? If my Alma Mater ever did anything like this I would give back my degree. How can you defend this?
- As an elementary school principal and parent of high school aged students, I can tell you not to waste your money by sending my children your literature. I would not dream of sending them to Tarleton!
- To whom it may concern, My son was considering attending your institution. Thanks to your production of 'GAY JESUS' your school is now out of consideration. If you think that by hosting such filth, and bashing Christians and our faith that you are gaining points with the very people whom are among the largest groups to attend your school, you are pure unadulterated idiots. With the majority of people in this country having conservative

values, and a good percentage of them being Christians, you are in effect shitting on the hand that feeds you. This decision of yours will affect your bottom line, and as such you can thank yourselves for having dug your own financial pit. If the administrators who make this decision are in fact true hippie liberals, then this email will fall on the deaf ears of a kool-aid drinking activist who does not have the best intentions for Tarleton State University in mind. My sons tuition money will hence forth be spent at a school that doesn't throw Christianity under the bus. Good luck to you Tarleton, maybe enough liberal god hating hippies will sign up with you, and make the grade!

- While you may hide behind "students' first amendment rights" would you take the same position if the play showed a pro-Nazi or pro-KKK presentation of an event. Or showed a racist lynching as a good event???? I really doubt it.
- As an administrator, I know that what productions my school presents represents US and would never dream of such filth.
- Like it or not, this production is what your university will be known for nationally.
